The Impact of Social Sciences & Humanities on Society

After the fruitful editions in Cardiff and Copenhagen, AESIS is proud to announce its next edition on ‘**The Impact of Social Sciences and Humanities on Society**’. Motivated by science policy developments of recent years, the AESIS Network started in 2017 to organize the first international conference on Societal Impact of Social Sciences and Humanities (SSH), and the signing of the [Cardiff Statement](#) on optimising this impact. Building further on the positive outcome of the SSH 2018 conference in Copenhagen in mind, continuation of the event was decided for the following purposes: to restate and champion the fundamental role that the social sciences and humanities play in society, and to call for an expanded role for the social sciences and humanities in tackling societal and cultural problems through academic research. **Alan Leshner** (CEO, Emeritus of the American Association of the Advancement of Sciences) will be chairing the conference. This event will bring together the SSH research community and its stakeholders in society to discuss:

- ◆ **Optimising the impact of social sciences & humanities on society**
 - * What does societal impact entail and how can such impact be achieved effectively?
 - * What are best practises for researchers to engage with the public?
 - * What can we learn from worldwide policies to optimise societal impact?
 - * Better access to public data for better research
- ◆ **How can societal impact be measured and assessed?**
 - * Demonstrating impact through metrics and narratives
 - * How is societal impact integrated in the internal & external university assessment system
 - * Demonstrating ground-breaking examples of academic entrepreneurship in SSH disciplines
 - * Contribution of university management
- ◆ **Fostering alliances between government, cultural institutes, industries and academia**
 - * Working with local and regional communities to create impact with SSH research
 - * Creating more impact through cooperation between SSH & the STEM disciplines
 - * Creating synergy with business, industry and intermediary institutions
 - * Long term & ad hoc alliances

Programme Advisory Committee

Alan Leshner	Former CEO of the AAAS - American Association of the Advancement of Sciences, Washington DC
William Adams	Former Chair of the NEH - National Endowment for the Humanities, Washington DC
David Budtz Pedersen	Director of the Humanomics Research Centre, Aalborg University Copenhagen
Stephen Kidd	Executive Director of NHA - National Humanities Alliance, Washington DC
Wendy Naus	Executive Director of COSSA - Consortium of Social Science Associations, Washington DC
James Wilsdon	Vice-Chair of INGSA - International Network for Governmental Science Advise & Director of Research and Innovation, Faculty of Social Sciences, University of Sheffield
Tim Wilson	Executive Director at SSHRC - Social Sciences and Humanities Research Council, Ottawa
Jack Spaapen	Senior Policy Impact Advisor at KNAW - Royal Netherlands Academy of Arts and Sciences

AESIS Advisory Board

Koenraad Debackere	General Manager, University of Leuven, Belgium
Luke Georgiou	Vice-President Research and Innovation at University of Manchester
Chris James	Product Manager Research Metrics, Elsevier, Netherlands
Barend van der Meulen	Head of Research, Rathenau Instituut, Netherlands
Susan Renoe	Director of the Broader Impacts Network, United States of America
Tobin Smith	Vice President of Policy, American Association of Universities
David Sweeney	Executive chair, Research England, UK
Pauline Tay	Deputy Director at the Research Council, Singapore
Paul Wouters	Director of the Centre for Science & Technology Studies, Netherlands
