

Closing Plenary

Recommendations
&
AESIS Family Feud & Impact Debate

Recommendation (Room 6.35)

Parallel session: Evidence Informed Policy Making

Recommendation: “To improve the impact of SSHA we need to build social infrastructures that support researchers to work together and with other societal actors to improve the democratic processes.”

Recommendation (Room 1.34)

Parallel session: Science Funding Frameworks

Recommendation: “Let’s evaluate evaluation! We need more comparative studies looking at national impact evaluation frameworks.”

Recommendation (Room 1.17)

Parallel session: Inclusive Engagement with Broader Community

Recommendation: “Advancing inclusive engagement in research will be achieved by: Ensuring accessible communications throughout relationship-building process, creating and sharing effectiveness tools and proising practices, and pursuing a people-centred approach that will strengthen cultures of collaboration across multi-sector players in research”

Recommendation (Room 0.47)

Parallel session: Demonstrating and Amplifying Impact beyond Bibliometrics

Recommendation: “Both indicators and AI can be used to help generate, translate & understand impact, but treat both with healthy cynicism.”

Recommendation (Room 1.34)

Roundtable session: Evidencing Regional Strengths to meet Global Challenges

Recommendation: “Complexity of the ‘geography’ and ‘scales’ needs to be recognised in funding mechanisms, and awareness needs to be raised about ‘appropriate’ use of metrics (for career progression)”

Recommendation (Room 6.35)

Roundtable session: Transdisciplinarity: Trials, Tribulations and Triumphs

Recommendation: “To facilitate TD working to benefit all team work
is dream work – apply system thinking to our processes”

Recommendation (Room in Building TRH)

Roundtable session: Co-Creating Impact through Business Engagement

Recommendation: “Entrepreneurial tools, such as co-developed value proposition and stakeholder mapping, can strengthen and amplify University-Industry engagement, but culture needs to change to maximise their impact.”
