# Open Science (Roundtable)

*How to operationalise Open Science  
and the effects on societal impact of science*

**Sarah Coombs**

Saxion University of Applied Sciences, the Netherlands

**Max Dumoulin**

VP Institutional Offerings, Elsevier, the Netherlands

**Simon Kerridge**

Director of Research Policy & Support, University of Kent, UK

# Topics and some 'intriguing questions'

## ***I. Creation of databases of RESEARCH OUTPUTS***

- How to do this and avoid paywalls?
- What is the importance of EFFICIENCY for RESEARCHERS (when sharing outputs)?

## ***II. Increase collaboration between RESEARCHERS***

- How does Open Science benefit collaboration?

## ***III. Improve diffusion of research output to SOCIETAL STAKEHOLDERS***

- How to measure diffusion success?

## ***IV. Responsible Metrics***

- Do we understand the metrics that we (and others) are using?
